

Isis Restaurant

The restaurant has a covered area, as well as a large terrace facing the sea for those who want to dine al fresco.

We specialize in Thai food and we have our own Thai cook. You'll find tasty food here and someone listening to your desires.

Aside from Thai food we also provide American, Continental and Filipino breakfasts. Breakfast is such a wonderful moment in front of this beautiful sea.

And for those who prefers American, European, and Filipino lunch or dinner, there is a choice of different dishes for you.

Guests may also choose to order "à la carte".

Upon request, Isis Restaurant can help you discover some delicious Filipino specialties based on sea weeds and raw fish for instance. "Kinilaw" is so good!
